COLLECTION

HSM Collection can be described as a lifestyle brand, mixed with industrial and modern influences which provides a great variety of different products. We have carefully selected over 1500 different furniture pieces, which we proudly label the HSM Collection. To create such a big and diversified assortment we source our products from all over the world. India, Indonesia, Eastern Europe, China, Brazil, these are just a few countries the collection sources its items from.

The philosophy and goal we try to fulfil with the HSM Collection, is to provide not only the best priced quality items, but also to make each home a home. With our wide selection of decoration and in-house furniture we see it as our job that everybody can give his/her house that warm and cosy feel. The use of exotic woods such as teak and mahogany combined with high quality steel is just an example why the HSM Collection is a one of a kind brand.

To keep up with the newest trends the HSM Collection is in a constant movement. We are always expanding into growing segments and try to keep up with customer demands. To do so we refresh the collection by adding and changing over 250 new furniture pieces each year.

Acacia

Acacia wood is a particularly durable hardwood species that has been used for furniture for a long time. Particularly the fine grain, flame drawing and the changing shades of color give furniture made of acacia a solid and warm appearance.

Durham

The Durham series is a perfect example of mixing antique with modern. The beautiful details in this series immediately give each room a vintage feel. The worn black colour in this collection can be perfectly combined with the more robust materials such as metal and iron.

Velvet

Make your living room complete with the velvet chairs! These will look beautifully at your dining room table or as a separate chair in a nice corner of the bedroom. The beautiful velvet fabric feels very soft and has a beautiful appearance. A nice cuddly chair! The seat and back are lined and are wonderfully soft.

Yacht Leather

The sturdy materials give the chairs a nice robust appearance. Yacht-leather is made up of two materials: 70% genuine leather and 30% polyester. The bottom layer consists of recycled genuine leather and creates a unique natural look. The upper protective layer consists of polyester which prevents blemishes.

Root

Root wood belongs to the great diversity of fascinating colourful structural images to the most special decorative wood species in the world. The origin of these tubers is an accumulation of buds, branches and root development with extraordinary forms, which deviate strongly from the normal growth pattern of the tree.
